image

Edit: Edits the caption for
the selected image

Back: Sends you back to
non-admin view (State 2)

Displays a preview of
the selected image.
The preview shows
its caption, tags, and
the date it was
captured.

This is the album
view. Here, you can
add tags, view a
slideshow, delete, ad
or copy and move
photos to other

Create an Album

4

The screenshot shows a web interface for creating an album. It has a light gray background. On the left, there is a sidebar with a 'Quit' button at the top, followed by the title 'Create an Album', and three buttons: 'Add photo', 'Name the Album', and 'Back to Menu'. The main area on the right contains an 8-photo grid (2 rows by 4 columns) of blue squares. Red arrows point from text boxes to specific elements: one from the 'Add photo' button to a text box, one from the 'Name the Album' button to another text box, one from the 'Back to Menu' button to a third text box, and one from the bottom-right photo in the grid to a fourth text box.

Saves the album and brings you back to the Non-Admin View(State 2)

Opens a dialog text-field asking for the album name

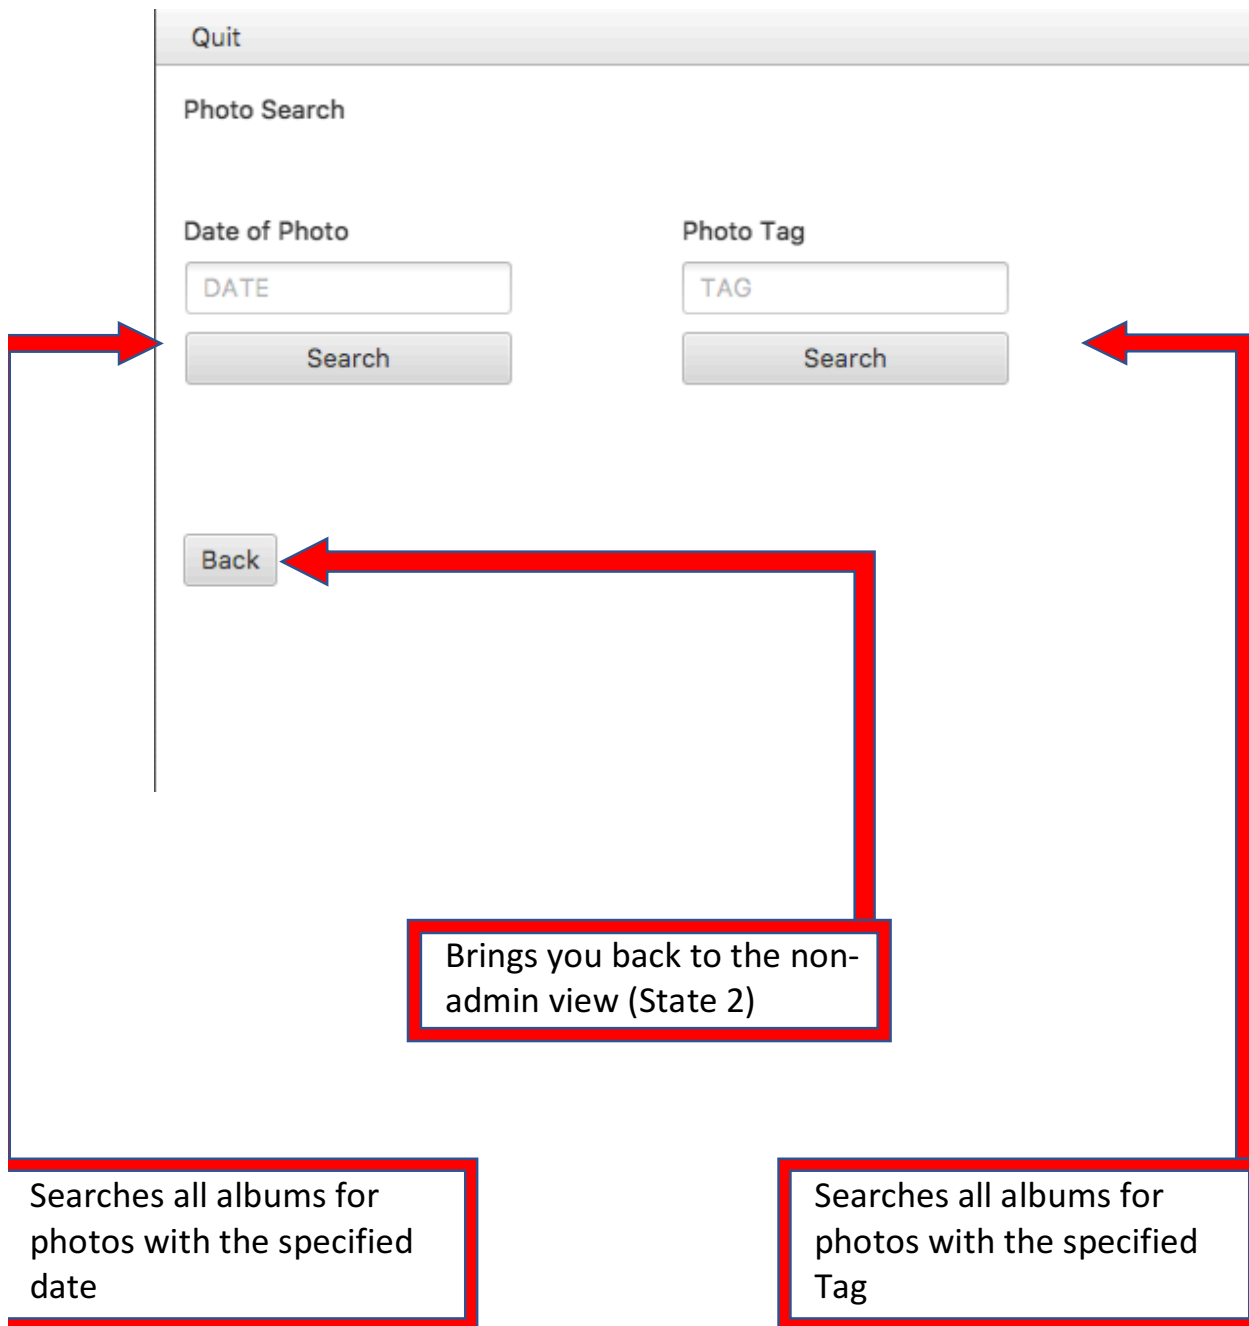

Displays all photos that you have currently added to the album

Brings up a box prompting for a file upload. Then adds the image to the album.

Here, you can create an album.
To do this, add photos and specify a name

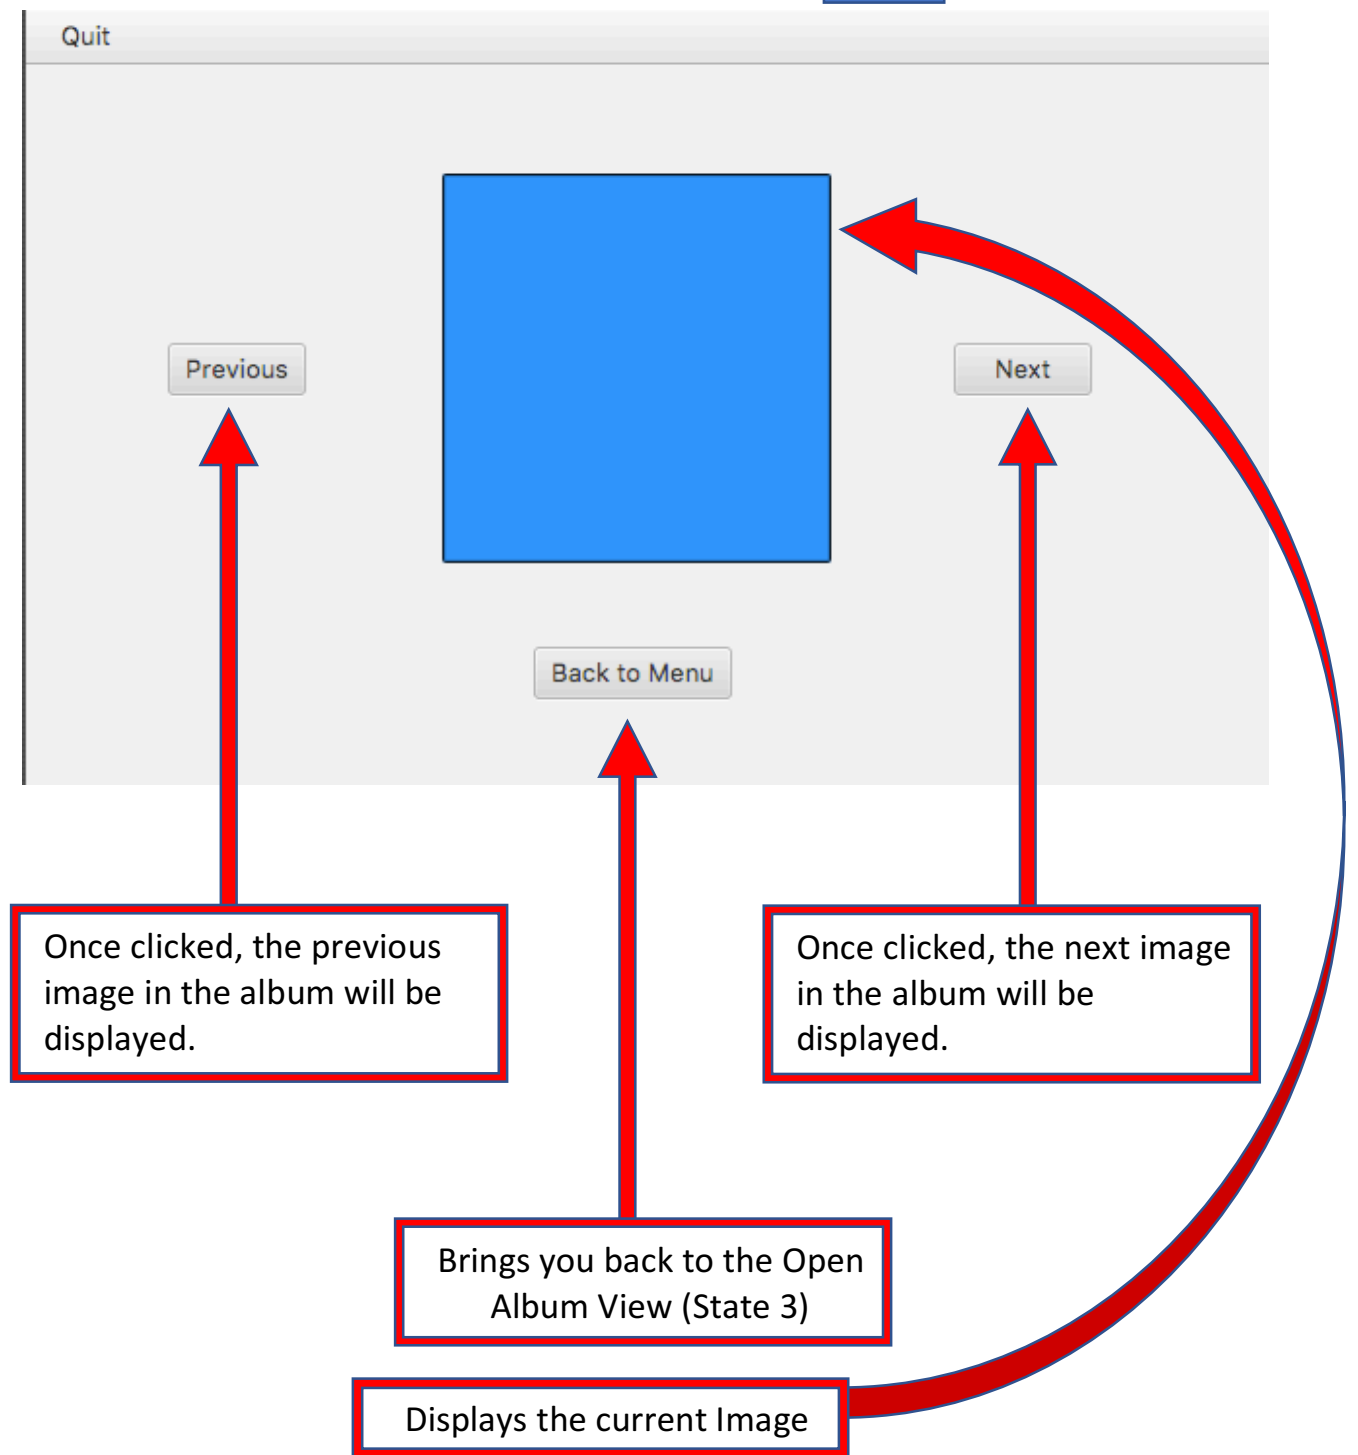

Photo Search

5

This is where you can search through photos using either a date or tag.

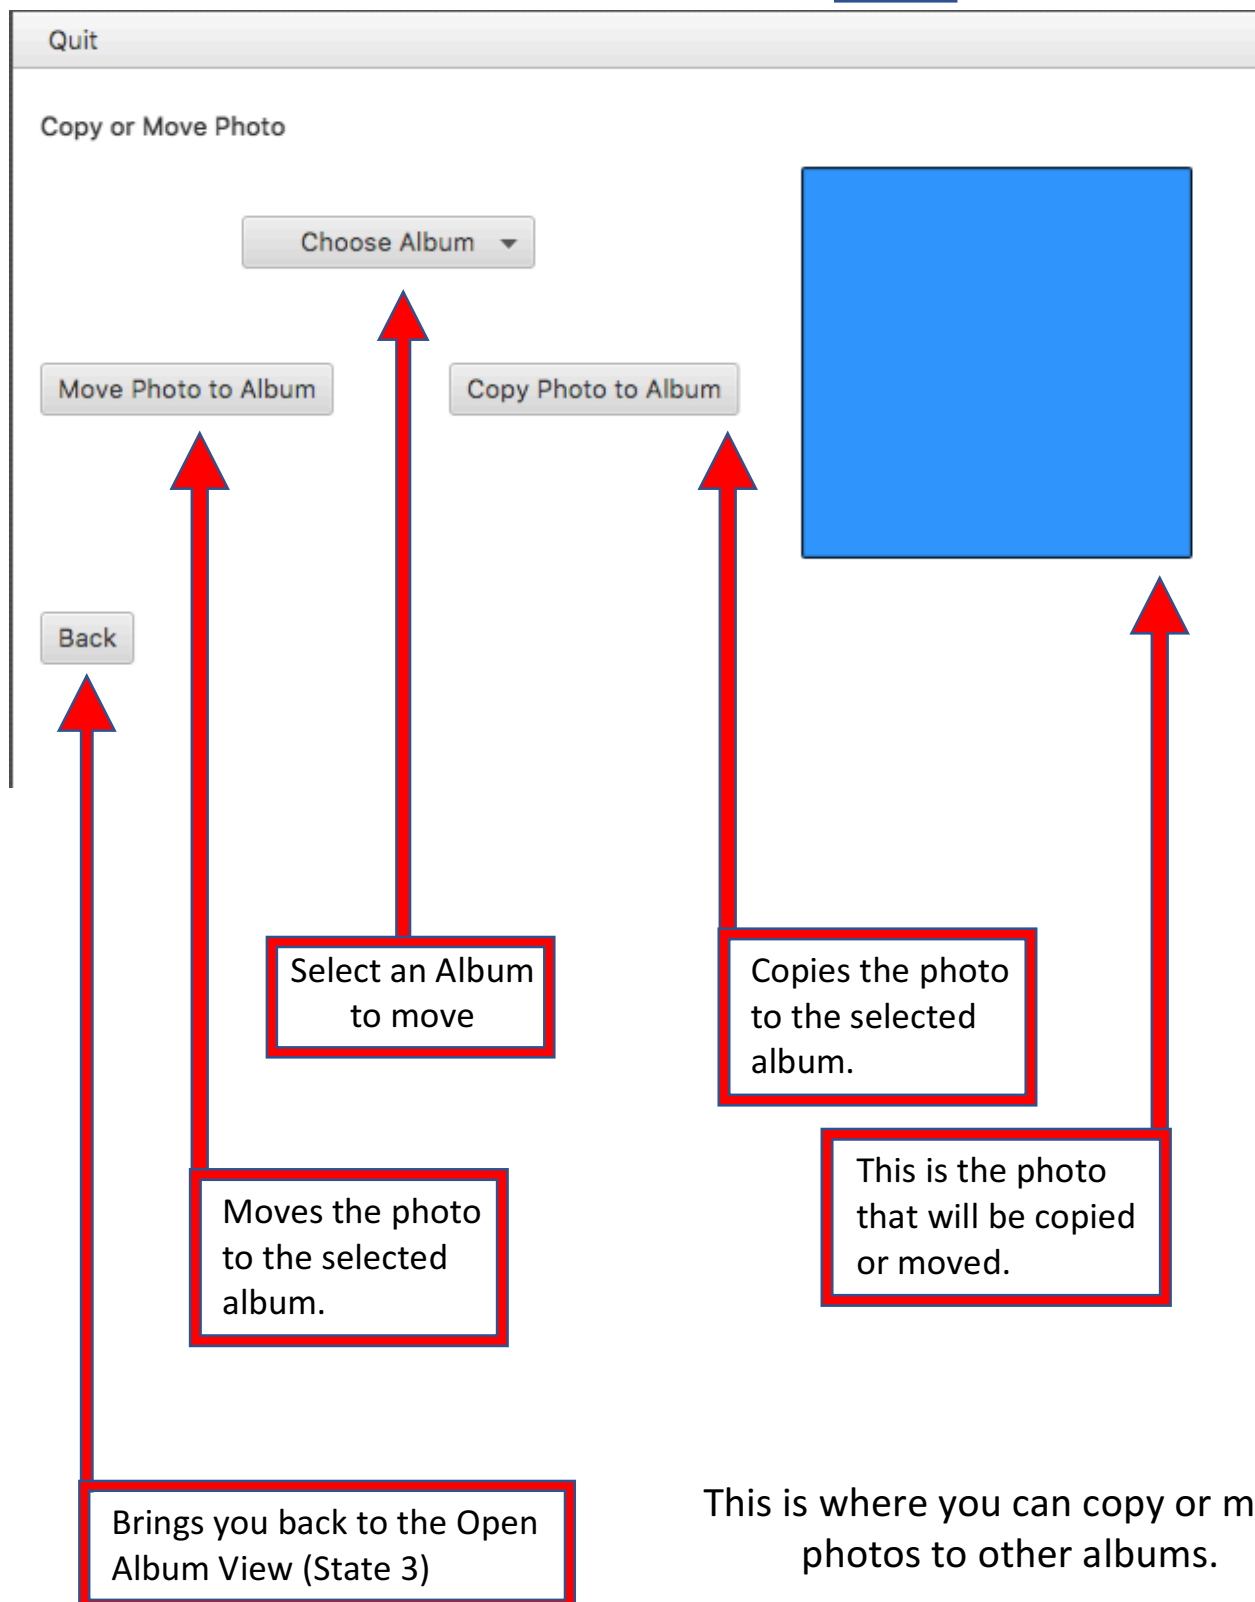

Slideshow 6

This is the slideshow view.
Here, you can navigate back-and-forth through the photos in the album.

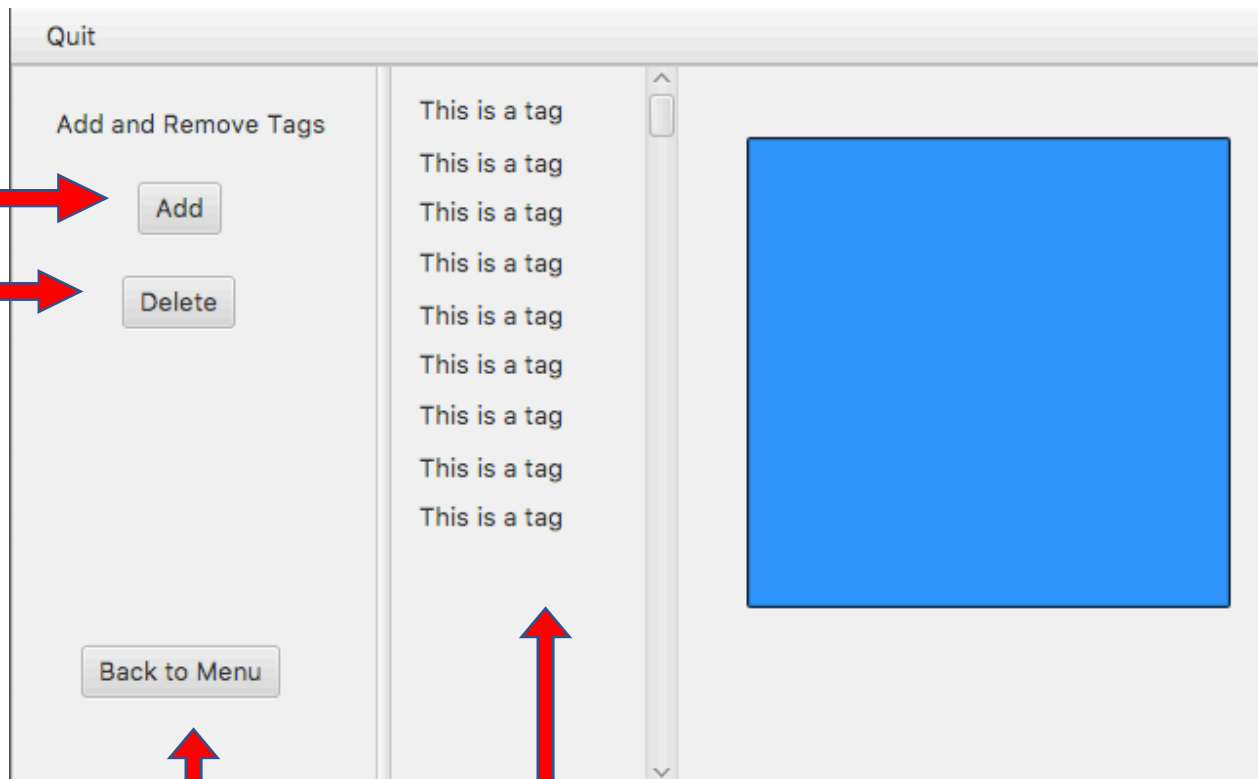

Copy or Move Photo

7

Edit Tags

8

Brings you back to
Album View (State 3)

Displays a list of all tags
that the photo has

Delete a tag from the
current photo

This is the currently selected
photo.

Adds a tag to the current
photo

This is where you can add or delete tags
for the current image
